YOUR DELICIOUS STORY

Food Worth Sharing

Every crepe, waffle, and omelet you craft is Instagram gold. We'll make sure Alberta sees it.

THE GAP

What You're Missing Right Now

Great food and environment, but your digital presence isn't matching your in-restaurant experience.

Inactive Social

No posts since Nov 20th = missed daily customer connections

Low Visibility

Competitors post daily while your dishes go unseen

No Strategy

Sporadic content = not top-of-mind for brunch cravings

Untapped Reviews

Great food deserves great reviews, but missing community engagement means lost social proof

Missing Audience

Alberta's food community is ready to discover you, they just need regular reminders you exist

Weak Brand Presence

Without consistent digital visibility, your brand isn't building the recognition it deserves

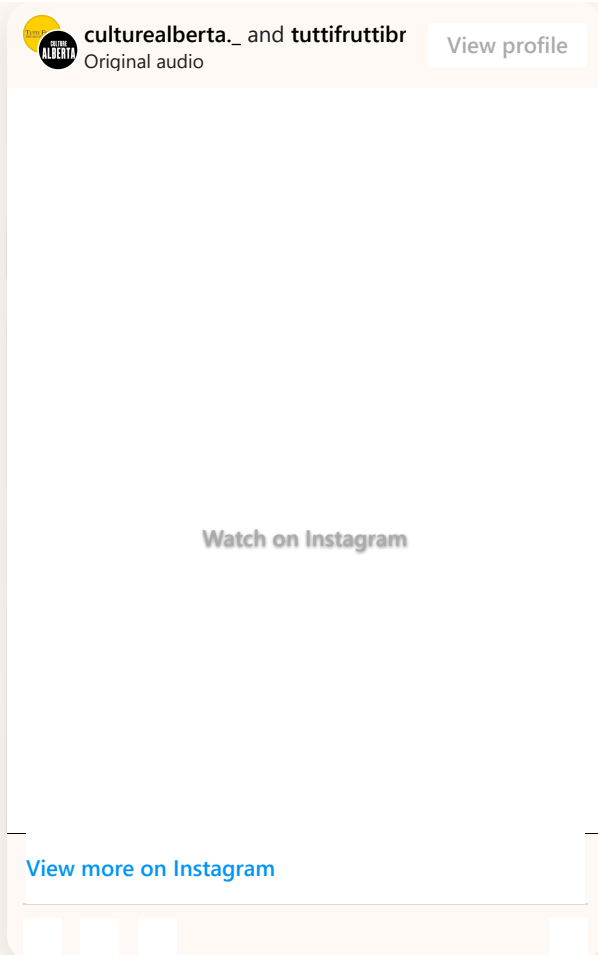

You need a digital footprint: Every day without content is a day your competitors win over customers who could be yours. Your food is Instagram gold. It just needs to be shared consistently to turn scrollers into diners.
